

Tote Bag Weave Along Materials List

*A rigid heddle loom, at least 60cm wide (although if you have a smaller loom, there is no reason why you couldn't join panels together to make up the width)

*A 7.5 dent heddle/reed

*A stick shuttle longer than the width of your project (I use 22" shuttles with my 24" loom)

*Warping peg and clamps

*Threading/sleying hook

*A sewing machine or access to one

*A serger is handy but not essential

*Miscellaneous weaving and sewing materials eg, scissors, good quality sewing thread.

Yarns needed:

Warp - Australian 8 ply superwash merino/ light worsted/ dk weight, approximately 187 metres (204.6 yards)

Weft- Same as warp (you may not need to use the same amount as for the warp, but I always like to be safe.)

Other materials you will need:

For the bag-

*17" x 40" stiff, fusible interfacing

*17 x 40" lining fabric (duck, canvas, drill, poplin etc)

For the handles-

*30" x 3.5" stiff, fusible interfacing

*30 x 3.5" lining fabric

*Iron for pressing
